

DUONG HONG QUANG

PROFILE

As a second-year student at FPT University, I am looking for a Full Stack position to gain more experience and become a Junior Full Stack Engineer in the short term.

WORK EXPERIENCE

SCHOOL MEDICAL SYSTEM

April 2025 - August 2025

Backend Developer

- The School Medical System enables school nurses to efficiently manage student health records, medication, and medical events, while offering parents a clear and convenient overview of their child's health status.
- Using Jira, Visual Studio 2022, SQL Server Management 21, SMTP Service, Cloudinary, SignalR, Google OAuth

Bloodline DNA Testing Service

April 2025 - August 2025

Management System

Fullstack Developer

- Bloodline DNA Testing Management System provide medical facilities with a comprehensive digital platform to automate and manage their DNA testing services. It aims to streamline every operational aspect, from client booking and sample lifecycle tracking to results delivery and business analytics, minimizing errors, and enhancing service quality.
- Using Visual Studio 2022, WPF (Windows Presentation Foundation), ASP.NET Core MVC, Entity Framework Core, SQL Server Management 21

ÂM SẮC - CHARITY PROJECT

May 2024 - July 2024

PLANNER

- Develop a comprehensive plan for the event, including activity ideas, logistics, and potential collaborators.
- Create a detailed timeline for organizing the event, including deadlines for tasks and milestones for progress checks.
- Research funding strategies and grant opportunities that align with the event's goals and mission.

JAPAN STYLE CLUB (JSC)

May 2024 - August 2025

VICE PRESIDENT AND HEAD OF HR AND FINANCE DEPARTMENT

- Experienced in managing, recruiting, and motivating members.
- Experienced in allocating resources, maintaining a balance between costs and revenue.
